

# CALL FOR ABSTRACTS

## for the 72<sup>nd</sup> ASEV National Conference

February 2021

On behalf of the American Society for Enology and Viticulture, I am pleased to offer this Call for Abstracts for the 72<sup>nd</sup> ASEV National Conference. The in-person meeting in Monterey, California USA was canceled due to COVID-19 restrictions. The conference will now be held virtually.

The ASEV National Conference will feature:

- Merit Award Presentation
- Extension Distinction Award Presentation
- Keynote Presentation
- Symposium
- Research Reports (submitted through Call for Abstracts)
- Supplier Displays

The technical abstracts that are accepted will be presented June 23 & 24, 2021, during the virtual conference. All abstracts submitted are reviewed by the Technical Abstracts Review Committee. Abstracts will be posted on the [ASEV website](#) for authors who meet the presentation requirements.

We encourage submitted abstracts based on original research and research updates in all areas of viticulture and enology. Additionally, we would also like to see abstracts in the following research areas:

- Climate and other environment issues
- Irrigation management
- Trunk disease management
- Tactics in vineyard wildfire prevention
- Impact of smoke exposure on grape and wine composition

If you will be a student presenter, please refer to the Student Presenters section in regard to complimentary registration and presentation awards.

Please review the enclosed instructions. The deadline for all submissions is March 1, 2021. We must adhere strictly to this date. If you have any questions regarding your submission, contact our office. Inquiries will be directed to a program committee member as appropriate.

We look forward to receiving your abstract and hope that you will be able to participate.

Sincerely,

James Harbertson  
Technical Program Director

AMERICAN SOCIETY FOR

## 2021 Technical Program Committee

Presentations for the 2021 ASEV National Conference will be organized and scheduled as deemed appropriate by the program organizers with regard to topics, invited keynote speakers, and the abstracts submitted.

## Information for Authors

Both oral and poster presentations are regarded as equally valuable aspects of our technical program. Please refer to the next page for specific presentation requirements. Any abstract submitted for an oral or poster presentation must include a clearly stated research hypothesis. An abstract submitted for research already published will not be considered for this conference. Please refer to the Student Presenters section on the next page, if applicable. Presenter substitutions must be requested in advance for approval by ASEV. Substituted presenters must be listed as an author on the original abstract.

The audience will expect presenters to emphasize the interpretation of their research and address the relevance of the research project. Simply reporting one's data should be kept to a minimum.

All abstracts and presentations at the conference are under the auspices of ASEV. Any promotional materials used in advance or at the conference must acknowledge ASEV sponsorship of the National Conference.

## Presentation Format Preference

Authors may choose to identify their preference for either an oral or a poster presentation. It is the author's responsibility to indicate their preference on the online submission form at the time the abstract is submitted. The Technical Program Committee will determine the final scheduling decisions with respect to other aspects of the technical program and topic themes. Because oral presentation requests far exceed the number of slots available, all authors should be prepared to present a poster if their abstract is not selected for an oral presentation.

## Oral Presentations

Oral presentations will be scheduled in conjunction with topic-based sessions.

Each oral presentation will be scheduled for one presenter for 20 minutes, including allotted time for discussion with the audience. The session moderator will reserve time at the end of each session for a question and answer period with all session presenters available at the podium. A time-keeping system will be used to adhere to the schedule in all oral sessions.

All visual materials must be presented in PowerPoint slides. Specific guidelines will be provided in the Presentation Guidelines for Oral Technical Sessions, which will be included with letters of acceptance for presentation. Any author who does not provide his or her oral presentation during the designated time and session may not be considered for presentation at future ASEV National Conferences.

## Poster Presentations

The poster will be posted online and should contain the following information: title and name(s) of the author(s), introduction, materials and methods, conclusion, and several tables, graphs or diagrams that concisely illustrate the results. Formatting guidelines will be provided at a later date.

## Presentation Cancellation and Non-Participation

Any author who does not attend his or her poster presentation or present orally as assigned may not be considered for presentation at future ASEV National Conferences. Additionally, presenter's abstract will not be included on the [ASEV website](#) or in the Technical Abstracts book. For late cancellations, abstracts will be marked as "cancelled" in the printed Technical Abstract book. If you are not able to participate in your technical session, please contact us promptly.

## Registration

The ASEV does not compensate presenters for their participation. All presenters must register and pay registration fees. ASEV extends the member registration fee to all presenters. However, ASEV [membership](#) is encouraged and includes online access to [AJEV](#) and the [Catalyst](#) journals.

Presenters who are ASEV student members are eligible for complimentary conference registration. Refer to ASEV Membership in the Student Presenters section on the next page for details.

Pre-register in April for the conference when online registration is active. Fees during pre-registration are significantly lower than late registration fees.

## Student Presenters

### Best Student Presentation Awards

Students who are currently enrolled on a full-time basis for the 2020-2021 academic year in a degree program related to enology or viticulture are encouraged to present research at this conference. ASEV offers best student presentation awards annually to students selected for outstanding oral and poster presentations. **The Best Student Presentation Awards Committee will select one student presenter in enology and one in viticulture from oral and poster presentations.** Each award is allocated to one presenting author as designated on the information form.

Students who want to be considered for any Best Student Presentation Award must provide all information requested on the online submission form. Additionally, a student must actually complete his or her oral and/or poster presentation(s) during the scheduled period of time to be considered for these awards. All student award recipients will be announced at the end or after the national conference.

### ASEV Membership & Student Presenter Stipend

Any current full-time student who is not an ASEV member is welcome to join. [Click here to apply online or download a student membership application.](#) The membership application and payment must be submitted prior to the student's presentation day. All presenting students who are ASEV student members will be eligible for complimentary registration.

### Publication of Technical Abstracts

Each abstract that is to be included in the Technical Abstracts booklet will be edited for spelling, punctuation, and format. ASEV reserves the right to publish the accepted abstracts in the Technical Abstracts booklet and on the [ASEV website](#).

### ASEV Publications: American Journal of Enology and Viticulture (AJEV) and Catalyst: Discovery into Practice

Authors are encouraged to submit their manuscripts based on their presentations for publication in either journal. For information on submitting a complete manuscript for review, refer to the [ASEV Website](#) or email [editor@asev.org](mailto:editor@asev.org). The AJEV (published quarterly) and Catalyst (published semi-annually) are peer-reviewed journals.

### Direct Inquiries or Suggestions To:

## Abstract Preparation Instructions

### SUBMISSION FORMAT

To create your abstract, enter all of the information in the online form (using upper and lower case text).

- 1. Title:** The title should reflect the important aspects of the article as concisely as possible, in no more than 120 characters and spaces. (Titles that exceed this length will be automatically truncated.)
- 2. Byline:** The byline will be automatically created based on the author information that is entered on the online form. The corresponding author will be denoted with an asterisk and the presenting author with boldface type. The full address (including email) of the corresponding author (unabbreviated) will be listed below the authors' names. You will have the option to list authors in the order you want them to appear on your abstract.
- 3. Abstract:** You may type or copy/paste your one-paragraph abstract into the online form (300 words maximum). Please be sure to format your text (italic, bold, special characters, symbols, etc.) Your abstract should state the hypothesis, intent, or purpose of the research, the theoretical or experimental plan used, key findings (without experimental details or data), and major conclusions. Please do not cite references, figures, or tables. Do not state the obvious, such as "results/data will be presented." Abstracts that exceed the length limit will be automatically truncated.
- 4. Abbreviations and Symbols:** Do not use abbreviations in the title or abstract, with the exception of those which are standard for international usage (e.g., HPLC, ATP). The metric system is standard, and SI units should be used (other units may be placed in parenthesis after the SI). Symbols and abbreviations should conform to those used by the AJEV; a list is in the [Guide to Authors](#).
- 5. Additional Information:** You may upload additional information, such as a description of your research and pertinent data, including statistics, graphs, and charts to assist the abstract reviewers in evaluating the abstract. In some cases, additional information may be requested.

*(Note: The complete abstract will be automatically created based on the information entered in the online abstract submission form.)*

## Sample Abstract

Format for ASEV National Conference Abstracts

**Pat Vine** and Drew A. Glass\*

\*American Society for Enology and Viticulture, P.O. Box 1855, Davis, CA 95617, USA  
[glass@asev.org].

For a uniform appearance, it is important that the title be upper and lower case, as illustrated above, and that the name(s) of the author(s) for the byline be listed with first (given) name(s) first. The presenting author's name will be in bold face and an asterisk will denote the corresponding author. The full address (including email) of the corresponding author (unabbreviated) will follow the authors' names. The abstract text will be truncated after the 300 word maximum.

Acknowledgment of funding sources (list all by name)

## Online Abstract Submission Instructions Deadline Extended: March 1, 2021

Abstracts must be submitted **online** on or before **March 1, 2021**.

Go to <https://member.asev.org/abstract/index.php> to complete the online submission form.

The corresponding and presenting authors will receive a confirmation email following the abstract submission.
